PROFILE

Hi, I am Ojas,

A dedicated technologist with a profound passion for innovation and a solid foundation in web development, programming, and database management. As I advance in my academic pursuits, I consistently pursue new challenges and growth avenues. I am deeply committed to harnessing the transformative power of technology to create meaningful impacts and drive positive change globally.

PROJECTS

• Web site and resume

In my 1st semester of engineering I made My resume using HTML and CSS and A website known as Student Help Desk with a vision to help my batchmates in their studies.

[github.com/ojasvatstyagi/Student-Helpdesk-Basic-WebDep]

• Tour and Travel Application

Desktop Application using Java Swing and JDBC (Java Database Connectivity). Offers a one-stop solution for managing personal details, checking packages, booking hotels, and more!

Java Programming: The backbone of the entire system, ensuring robust functionality.

[github.com/ojasvatstyagi/Travel-Management-Application--JavaSwing]

• J.A.M.E.S - Judicial Administrative Management and Execution System

J.A.M.E.S! Developed using [HTML, CSS, PHP, Javascript, and SQL], it offers [Upholding the Rule of Law: The justice system is essential for maintaining the rule of law in society, ensuring that all individuals, regardless of their status, are subject to the same legal standards and protections].
